

RECUERDOS DE LA LIBERTAD RETREAT AND INITIATIONS

Kambo, Pranayama, Bufo

Hosted by : **David Alan Aeon**, **Yana Kuntur** and **Abuelo Leopoldo**

For many, this will be the most sacred and important experience of their lives, so great care is taken to honour the spirits of time and place, set and setting.

Recuerdos de la libertad means to recall our freedom. It embodies the understanding that we all have the innate right to freedom, which demands liberation from mind control.. this is the understanding that every being has the sovereign right to be free and to be a knower of God consciousness..and this medicine is bringing that intrinsic sovereignty into our awareness and into our personal power as God beings and offering a model on which to connect with each other from the inner depths of our being, without an intermediary...without any need to look externally but to understand that the ultimate sustainability is in your inner core... and that is your god consciousness and that is your god given right..and anything within the external world that is asking for your power or worship is creating a vampiric or parasitic relationship with us.

This empowers and enables us to grow out of the immature dyadic simulation to enter the wider galactic community as equals.

The curandero is experienced in determining whether or not a supplicant is ready, and what the dose should be. Trust is paramount and will be rewarded.
